

Oostburg School District Bylaws & Policies

8510 - WELLNESS

As required by law, the Board of Education establishes the following wellness policy for the Oostburg School District as a part of a comprehensive wellness initiative.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research suggests that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

Schools alone, however, cannot develop in students healthy behaviors and habits with regard to eating and exercise. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition choices to:

- A. promote nutrition education with the objective of improving students' health and reducing childhood obesity;
- B. improve the health and well-being of our children, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits;
- C. promote nutrition guidelines, a healthy eating environment, child nutrition programs, and food safety and security on each school campus with the objective of promoting student health and reducing childhood obesity;
- D. provide opportunities for every student to develop the knowledge and skills for specific physical activities, maintain physical fitness, regularly participate in physical activity, and understand the short and long-term benefits of a physically active lifestyle;
- E. promote the health and wellness of students and staff through other school based activities.

The District Administrator shall obtain the input of District stakeholders, to include parents, students, representatives of the school food authority, educational staff (including physical education teachers), school health professionals, members of the public, and other school administrators in the development, implementation, evaluation, and periodic update, if necessary, of the wellness policy.

The District Administrator is encouraged to form a wellness committee to carry out this function.

The wellness committee shall be an administrative committee with members recruited and appointed by the District Administrator.

The District Administrator shall be responsible for accomplishing the following:

- A. assess the current environment in each of the District's schools;
- B. measure the implementation of the District's wellness policy in each of the District's schools;

- C. review the District's current wellness policy;
- D. recommend revision of the policy, as necessary; and
- E. present the wellness policy, with any necessary revisions, to the Board for approval or re-adoption if revisions are necessary.

The District Administrator will oversee development, implementation, and evaluation of the wellness procedures.

The District Administrator shall conduct reviews of the progress toward school wellness procedures, identify areas for improvement, and recommend revision of procedures as necessary.

Before the end of each school year the District Administrator shall submit to the Board their report in which they describe the environment in each of the District's schools and the implementation of the wellness policy in each school, and identify any revisions to the policy the committee deems necessary.

The District Administrator shall report annually to the Board on the District's wellness programs, including the assessment of the environment in the District, evaluation of wellness policy implementation District-wide, and the areas for improvement, if any, identified. The District Administrator or a designee from the wellness committee shall also report on the status of compliance by individual schools and progress made in attaining goals established in the policy.

- A. With regard to nutrition education, the District shall:
 - 1. Nutrition education shall be included in the Health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
 - 2. Nutrition education shall be included in the sequential, comprehensive health curriculum in accordance with the curriculum standards and benchmarks established by the State.
 - 3. Nutrition education shall be integrated into other subject areas of the curriculum, when appropriate, to complement, but not replace, the standards and benchmarks for health education.
 - 4. Nutrition education standards and benchmarks shall be age-appropriate and culturally relevant.
 - 5. Nutrition education shall reinforce lifelong balance by emphasizing the link between caloric intake (eating) and exercise in ways that are age-appropriate.
 - 6. Nutrition education standards and benchmarks promote the benefits of a balanced diet that includes fruits, vegetables, whole grain products, and low-fat and fat-free dairy products.
- B. With regard to physical activity, the District shall:
 - 1. **Physical Education**
 - a. A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with

the physical education academic content standards and benchmarks adopted by the State.

- b. The sequential, comprehensive physical education curriculum shall provide students with opportunities to learn, practice, and be assessed on developmentally appropriate knowledge, attitudes, and skills necessary to engage in lifelong, health-enhancing physical activity.
- c. Planned instruction in physical education shall be sufficient for students to achieve a proficient level with regard to the standards and benchmarks adopted by the State.
- d. Planned instruction in physical education shall promote participation in physical activity outside the regular school day.
- e. The physical education curriculum shall provide sequential instruction related to the knowledge, attitudes, and skills necessary to participate in lifelong, health-enhancing physical activity.
- f. Physical education classes shall provide students with opportunities to learn, practice, and be assessed on developmentally appropriate knowledge and attitudes necessary to engage in lifelong, health-enhancing physical activity.
- g. The sequential, comprehensive physical education curriculum shall stress the importance of remaining physically active for life.
- h. The K-12 program shall include instruction in physical education as well as opportunities to participate in competitive and non-competitive team sports to encourage lifelong physical activity.
- i. Planned instruction in physical education shall teach cooperation, fair play, and responsible participation.
- j. Planned instruction in physical education shall meet the needs of all students, including those who are not athletically gifted.
- k. Planned instruction in physical education shall be presented in an environment free of embarrassment, humiliation, shaming, taunting, bullying, or harassment of any kind.
- l. Planned instruction in physical education shall include cooperative as well as competitive games.
- m. Planned instruction in physical education shall take into account gender and cultural differences.

2. Physical Activity

- a. Physical activity and movement shall be integrated, when possible, across the curricula and throughout the school day.
- b. The school shall encourage families and community organizations to help develop and institute programs that support physical activity of all sorts.
- c. All students in grades K - 12 shall have the opportunity to participate in extracurricular activities and intramural programs that emphasize physical activity.
- d. All students in grades 7-12 shall have the opportunity to participate in interscholastic sports programs.
- e. Schools shall offer a wide range of physical activities outside the regular school day that meet the needs, interests, and abilities of all students, including males, females, students with disabilities, and students with special healthcare needs.

C. With regard to other school-based activities the District shall:

1. The schools shall schedule mealtimes so there is minimum disruption by bus schedules, recess, and other special programs or events.
2. The school shall provide attractive, clean environments in which the students eat.
3. An organized wellness program shall be available to all staff.
4. The schools may use environmentally friendly practices, such as the use of locally grown foods and non-disposable tableware and dishes.
5. The schools may provide opportunities for staff, parents, and other community members to model healthy eating habits by dining with students in the school dining areas.
6. Schools in our system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
7. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about allergies and other restrictions on some students' diets.

Furthermore, with the objectives of enhancing student health and well being, and reducing childhood obesity, the following guidelines are established:

- A. In accordance with Policy [8500](#), entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages as well as to the fiscal management of the program.
- B. As set forth in Policy [8531](#), entitled Free and Reduced Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).
- C. The food service program will provide all students affordable access to the varied and nutritious foods they need to be healthy and to learn well.
- D. All foods available to students in the dining area during school food service hours shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods available to student a la carte or from vending machines.
- E. The food service program shall be administered by a director who is properly qualified, certificated, licensed, or credentialed, according to current professional standards.
- F. All food service personnel shall receive pre-service training in food service operations.

The District Administrator shall be responsible for informing the public, including parents, students and community members, on the content and implementation of this policy. In order to inform the public, the District Administrator shall post the wellness policy on the District's website.

Review of this policy shall occur every three (3) years, by a committee appointed by the Board, consisting of a representative(s) of the Board, the administration, the food service provider, the parents, the students, and the public. The committee shall provide the Board with any recommended changes to this policy.
