SCHOOL PERFORMANCE REPORT Board Policy 2700.01

Because of the COVID-19 pandemic and the student assessment requirement waivers for the 2019-20 school year, the Department of Public Instruction (DPI) was prohibited by section 115.385(6) of the state statutes from publishing a school and school district accountability report in the 2020-21 school year (i.e., the report that would have been based on 2019-20 data). Therefore, until reports are published in the 2021-22 school year (covering 2020-21 data) the most recent school accountability report that is available is the 2019-20 report that is based on data from the 2018-19 school year. (Note: As of May 2021, it appears likely that accountability reports will be published in the fall of 2021, although the DPI may need to make certain modifications to the content and format of the reports due to the special circumstances surrounding state and federally-required student assessments during both 2019-20 and 2020-21.) Each school board shall, upon request, distribute to the parent or guardian a copy of the report. If you have access to a computer, the data provided in the [School Report Card](#) is found by scrolling to the bottom of the home page on the school district website at www.oostburg.k12.wi.us. You will not need to request a copy of the report if you choose to view the School Report Card via the school district website. To request a copy of the report, please contact Kami VanEss in the District Office at 920-564-2346, Ext. 4006.

STUDENT ASSESSMENTS

The Wisconsin Department of Public Instruction (DPI) generates accountability report cards for schools / districts based on state assessments. Assessment schedule and associated information can be located on the DPI website at <https://dpi.wi.gov/assessment>. State law (section 118.30(2)(b) of the state statutes) establishes a parental right to excuse their child from taking the state-mandated examinations in grades 4, 8, 9, 10 and 11. Parents may request additional information regarding any state or local policy regarding student participation in any assessments mandated by law and by the district.

BOARD ADOPTED ACADEMIC STANDARDS – Public Release

Wisconsin Act 55 requires identification of the academic standards adopted that will be in effect for the school year. The Oostburg School District Board of Education recognizes the ACT College and Career Readiness Standards (<http://www.act.org/standard/>) as the primary standards for mathematics, science, reading, writing, geography, and history. These standards are supported by the Wisconsin Academic Standards (<http://dpi.wi.gov/standards> - *note: Wisconsin has adopted the Common Core State Standards in English Language Arts and Mathematics.) and The Next Generation Science Standards (<http://www.nextgenscience.org/>) as reflected in our District Standards-based report cards.

ACADEMIC & CAREER PLANNING

Information regarding OSD compliance with PI 26.03(1)(b)1 related to academic and career planning services can be found on the district website under the counseling tab at <http://oostburghighschoolcounseling.weebly.com/acp-implementation.html>

PARENTS RIGHT TO REQUEST PROGRAM MODIFICATIONS - Board Policy 2240

The Board recognizes that a course of study or certain instructional materials may contain content and/or activities that some parents find objectionable. If after careful, personal review of the program lessons and/or materials, a parent indicates to the building principal that either content or activities conflict with his/her religious beliefs or value system, the principal will consider a written request for his/her child to be excused for particular classes for specified reasons. If a request is not honored, that decision may be appealed to the District Administrator. The student, however, will not be excused from participating in the course or activities mandated by the State and will be provided alternative learning activities during time of parent requested absences.

STUDENT / PARENT RIGHTS - Board Policies 2416 & 5780

The Board of Education recognizes that students possess not only the right to an education but the rights of citizenship as well. In providing students the opportunity for an education to which they are entitled, the District shall attempt to offer nurture, counsel, and custodial care appropriate to their age and maturity. At the same time the Board recognizes that no student may be deprived of the basic right to equal access to the educational program and his/her constitutional right to due process and free expression and association as appropriate for the school environment.

Attendant to the rights afforded to each student, however, are certain responsibilities, which include respect for the rights of others, obedience to properly constituted school authority, and compliance with the guidelines and rules of the District. Since a student who has reached the age of majority possesses the full rights of an adult, s/he may authorize those school matters previously handled by his/her parents, but s/he also assumes the responsibility for his/her performance in school, attendance, and compliance with the guidelines and District rules. Administrators, counselors, and teachers shall not provide a supporting affidavit for students who have petitioned the court to grant them the status of emancipated minors unless prior approval has been obtained from the District Administrator.

Parents also have rights in the school system to know about their student's educational experience. In addition, parents have the right to inspect any instructional materials used as part of the educational curriculum for their student. Instructional materials means instructional content, regardless of format, that is provided to the student, including printed or representational materials, audio-visual materials, and materials available in electronic or digital formats (such as materials accessible through the Internet). Instructional material does not include academic tests or academic assessments. 20 U.S.C. 1232h

SPECIAL NEEDS SCHOLARSHIP PROGRAM

School boards are required by section 115.7915(5) of the state statutes to annually notify the parents/guardians of each child with a disability enrolled in the school district of the Special Needs Scholarship Program (private school voucher program), which is available to students with an individualized education program (IEP) who meet specified conditions outlined in state law. Additional information can be found at <https://dpi.wi.gov/parental-education-options/special-needs-scholarship>

PERSONAL COMMUNICATION DEVICES – Board Policy 5136

Students may use personal communication devices (PCDs) before and after school, during after school activities (e.g., extra-curricular activities), and at school-related functions. Use of PCDs, except those approved by a teacher or administrator, at any other time is prohibited and they must be powered completely off (i.e., not just placed into vibrate or silent mode) and stored in the student's locker. Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property. Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege. Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student/parent/guardian after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned-over to law enforcement.

COMPULSORY STUDENT ATTENDANCE – Board Policy 5200

State law requires the Board of Education to enforce the regular attendance of students. Further, the Board recognizes that the District's educational program is predicated upon the presence of the student and requires continuity of instruction and classroom participation. The regular contact of students with one another in the classroom and their participation in a well-planned instructional activity under the tutelage of a competent teacher are vital to this purpose.

All children between six (6) and eighteen (18) years of age shall attend school regularly during the full period and hours, religious holidays excepted, that the school in which the child is enrolled is in session until the end of the term, quarter, or semester of the school year in which the child becomes eighteen (18) years of age, unless they fall under an exception under State law, or this policy. A child who is enrolled in five (5) year-old kindergarten shall attend school regularly, religious holidays excepted, during the full period and hours that kindergarten is in session until the end of the school term. Students may be excused for illness, necessary appointments which cannot be scheduled outside the school day, the funeral of a relative, legal proceedings which require the student's presence, college visits (junior or senior status only), a job interview/fair, or family trip, vacation or observance of a religious holiday consistent with the student's creed or belief.

PROGRAMS FOR ENGLISH LANGUAGE LEARNER STUDENTS – Board Policy 2260.02

- Placement and reason why their child was identified as LEP
- Child's academic achievement level and level of English proficiency (including method of measurement)
- The methods used for language instruction

DIRECTORY INFORMATION - Board Policy 8330

The Oostburg School District maintains student records for each student attending school in the District. These records include: 1) student progress records (i.e. courses taken, grades, attendance, immunizations, extra-curricular activities), and 2) student behavioral records (i.e. standardized achievement tests, psychological tests, personality evaluations, records of conversations, written statements relating to an individual student's behavior,

student physical health other than immunizations, law enforcement records obtained by the District and other student records which are not progress records).

Further, the District has designated the following student record information as directory data: student's name, address, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, and degrees and awards received. This information may be disclosed to any person unless the eligible student, or parent, legal guardian, or guardian ad litem of a minor student, informs the school within fourteen (14) days of receipt of this notice that all or any part of the directory data may not be released without the prior consent of the eligible student, or parent, legal guardian, or guardian ad litem. This designation will remain in effect until it is modified by the written direction of the eligible student or the parent, legal guardian, or guardian ad litem of a minor student.

State and Federal laws require that the maintenance of student records assure confidentiality. Accordingly, the following shall apply in the District:

A. An eligible student, or the parent(s)/guardian of a minor student, has the right to inspect, review and obtain copies of the student's school records upon request in accordance with established District procedures. Copies of the District's student records procedures are available upon request at the District office. Regular office hours are 8:00 a.m. to 4:00 p.m., Monday through Friday.

B. An eligible student, or the parent(s)/guardian of a minor student, has the right to request the amendment of the student's school records if s/he believes the records are inaccurate or misleading. Complaints regarding the content of student records may be made to the District Administrator in accordance with the established District procedures. A parent or eligible student must identify specific errors or omissions in the records and provide all pertinent information that justifies modification of the record. Copies of the District's procedures are available upon request as outlined above.

C. An eligible student, or the parent(s)/guardian of a minor student, has the right to consent to the disclosure of information contained in the student's school records, except to the extent that State and Federal laws authorize disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials determined to have legitimate educational interests, including safety interests, in the records. A "school official" is a person employed by the District who is required by the Department of Public Instruction to hold a license; a person employed by or working on the behalf of the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and police-school liaison officers); a person serving on the Board of Education; a person or company with whom the District has contracted to perform a specific task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a "legitimate educational interest" if the official needs to review a student record in order to fulfill his/her professional or District responsibility.

The District shall transfer a student's record to another school or school district, if the student seeks to enroll in that school or school district, without consent upon request in accordance with State law. District procedures outline the specific reasons for disclosure without consent and are available upon request as outlined above.

D. An eligible student, or the parent(s)/guardian of a minor student, has the right to file a complaint with the U.S. Department of Education for alleged District noncompliance with the Federal Family Educational Rights and Privacy Act (FERPA) or the Protection of Pupil Rights Amendment (PPRA) requirements. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington DC 20320-4605.

Student progress records shall be retained permanently after the student ceases to be enrolled in the District. All student behavioral records will be destroyed one (1) year after the date the student graduates from or last attends a school in the District unless the student, or the parent/guardian of a minor student, gives permission that the records may be maintained for a longer period of time.

RECRUITER ACCESS TO STUDENTS/RECORDS

Districts receiving federal education funds are required to provide, on request made by military recruiters or an institution of higher education, access to secondary school students' name, addresses and telephone listings unless access to such information has been restricted by an opt-out decision. Students age 18 or above or the parent of a student under 18 may submit a written request to the district that the student's information not be released to military recruiters or institutions of higher education without prior written parental consent.

STUDENT PRIVACY AND PARENTAL ACCESS TO INFORMATION - Board Policy 2416

The Board of Education respects the privacy rights of parents and their children. No student shall be required, as a part of the school program or the District's curriculum, without prior written consent of the student (if an adult or an emancipated minor) or, if an un-emancipated minor, his/her parents, to submit to or participate in any survey, analysis, or evaluation that reveals information concerning:

- A. political affiliations or beliefs of the student or his/her parents;
- B. mental or psychological problems of the student or his/her family;
- C. sex behavior or attitudes;
- D. illegal, anti-social, self-incriminating or demeaning behavior;
- E. critical appraisals of other individuals with whom respondents have close family relationships;
- F. legally recognized privileged and analogous relationships, such as those of lawyers, physicians, and ministers;
- G. religious practices, affiliations, or beliefs of the student or his/her parents; or
- H. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program).

The District Administrator shall ensure that procedures are established whereby parents may inspect any materials created by a third party used in conjunction with any such survey, analysis, or evaluation before the survey/evaluation is administered or distributed by the school to the student. The parent will have access to the survey/evaluation within a reasonable period of time after the request is received by the building principal.

Consistent with parental rights, the Board directs building and program administrators to:

- A. notify parents in writing of any surveys, analyses, or evaluations, which may reveal any of the information, as identified in A-H above, in a timely manner, and which allows interested parties to request an opportunity to inspect the survey, analysis, or evaluation; and the administrator to arrange for inspection prior to initiating the activity with students;
- B. allow the parents the option of excluding their student from the activity;
- C. report collected data in a summarized fashion which does not permit one to make a connection between the data and individual students or small groups of students;
- D. treat information as identified in A-H above as any other confidential information in accordance with Policy 8350.

Additionally, in accordance with Policy 2240, parents have the right to inspect, upon request, any instructional material used as part of the educational curriculum of the student. The parent will have access to the instructional material within a reasonable period of time after the request is received by the building principal. The term instructional material means instructional content that is provided to a student, regardless of its format, including printed and representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or assessments.

For the privacy of students whose parents request that they not take part in the survey, arrangements will be made prior to the time period when the survey will be given, for the student(s) to go to a supervised location where, under the supervision of a staff member, the student will be provided with an alternate activity. The Board will not allow the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

Parents have the right to inspect, upon request, any instrument used in the collection of personal information before the instrument is administered or distributed to the student. The parent will have access to the instrument within a reasonable period of time after the request is received by the building principal. The term "personal information" means individually identifiable information including: a student or parent's first and last name; a home or other physical address (including street name and the name of the city or town); a telephone number; and a Social Security identification number.

This section does not apply to the collection, disclosure or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, student or educational institutions, such as the following:

- A. college or other postsecondary education recruitment, or military recruitment;

- B. book clubs, magazines, and programs providing access to low-cost literary products;
- C. curricular and instructional materials used by elementary and secondary schools;
- D. tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
- E. the sale by students of products or services to raise funds for school-related or education-related activities;
- F. student recognition programs.

BULLYING – Board Policy 5517.01

An overview of policy 5517.01 is posted in each building and the full policy is available to any person who requests it. Additional resources may be located on the DPI website at <https://dpi.wi.gov/families-students/health-safety/bullying>.

SEARCH AND SEIZURE – Board Policy 5771

The Board of Education has charged school authorities with responsibility for the safety and well-being of the students in their care. In discharge of that responsibility, school authorities may search school property such as lockers used by students or the person or property, including vehicles, of a student, in accordance with Board Policy 5771. Additional details regarding Search and Seizure authority is available by requesting a complete copy of policy 5771.

DRUG-FREE SCHOOLS – Board Policy 5530

In accordance with Federal Law, the Board of Education prohibits the use, possession, concealment, or distribution of drugs by students on school grounds, in school or school-approved vehicles, or at any school-related event. Drugs include any alcoholic beverage, anabolic steroid, dangerous controlled substance as defined by State statute or substance that could be considered a “look-a-like” controlled substance. Compliance with this policy is mandatory for all students. Any student who violates this policy will be subject to disciplinary action, in accordance with due process and school procedures, up to and including expulsion from school. When required by State law, the District will also notify law enforcement officials.

The District is concerned about any student who is a victim of alcohol or drug abuse and will facilitate the process by which s/he receives help through programs and services available in the community. Students and their parents should contact the school principal or counseling office whenever such help is needed.

VIDEO SURVEILLANCE AND ELECTRONIC MONITORING – Board Policy 7440.01

The Board of Education authorizes the use of video surveillance and electronic monitoring equipment at various school sites throughout the District and on school buses. The District Administrator is responsible for authorizing where to install and operate fixed-location video surveillance/electronic monitoring equipment in the District. The determination of where and when to use video surveillance/electronic monitoring equipment will be made in a nondiscriminatory manner. Video surveillance/electronic monitoring equipment may be placed in common areas in school buildings (e.g. school hallways, entryways, the front office where students, employees and visitors are permitted to freely come and go, gymnasiums, cafeterias, libraries), the school parking lots and other outside areas, and in school buses. Except in extraordinary circumstances and with the written authorization of the District Administrator, video surveillance/electronic monitoring equipment shall not be used in areas where persons have a reasonable expectation of privacy (e.g. restrooms, locker rooms, changing areas, private offices (unless there is express consent given by the office occupant), or conference/meeting rooms), or in individual classrooms during instructional times. Security staff and administrators are authorized to carry and use portable video cameras when responding to incidents.

Application forms are being sent to all homes with a notice to parents or guardians. To apply for FREE or REDUCED hot lunch benefits, households must fill out the application online using the Infinite Campus Parent Portal (unless notified at the start of the school year that children are eligible through direct certification). Additional copies of applications are available at the district office – located in the Elementary School in summer and on the school’s website. The information provided on the application will be used for the purpose of determining eligibility and may be verified at any time during the school year by agency or other program officials. Applications may be submitted at any time during the year.

To obtain FREE or REDUCED hot lunch benefits for children in a household where one or more household members receive FoodShare, FDPIR, or Wisconsin Works (W-2) cash benefits, list the FoodShare, FDPIR or W-2 case number, program name, list the names of all school children, sign the application, and return it to the school office.

For the school officials to determine eligibility for FREE or REDUCED hot lunch benefits of households not receiving FoodShare, FDPIR or W-2 cash benefits, the household must provide the following information requested on the application: names of all household members, total number of household members, and the adult signing the application form must also list the last four digits of his or her Social Security Number or mark the box to the right of “Check if no SSN”. Also, the income received by each household member must be provided by amount and source (wages, welfare, child support, etc.).

Under the provisions of the FREE or REDUCED hot lunch benefits the determining official: Michele Dulmes, Food Service Coordinator @ OSD, will review applications and determine eligibility. If a parent or guardian is dissatisfied with the ruling of the official, he/she may wish to discuss the decision with the determining official on an informal basis. If the parent/guardian wishes to make a formal appeal, he/she may make a request either orally or in writing to: School District of Oostburg, Attn: School Board President Jim Swart, 410 New York Ave., Oostburg, WI 53070. Or by appointment, call 920-564-2346. If a hearing is needed to appeal the decision, the policy contains an outline of the hearing procedure.

If a household member becomes unemployed or if the household size changes, the family should contact the school. Such changes may make the household eligible for free or reduced price benefits or free milk if the household income falls at or below the levels shown above, and they may reapply at that time.

Children formally placed in foster care are also eligible for FREE or REDUCED hot lunch benefits. Foster children may be certified as eligible without a household application. Households with foster children and non-foster children may choose to include the foster child as a household member, as well as any personal income available to the foster child, on the same application that includes their non-foster children.

The information provided by the household on the application is confidential. Public Law 103-448 limits the release of student FREE or REDUCED hot lunch eligibility status to persons directly connected with the administration and enforcement of federal or state educational programs. Consent of the parent/guardian is needed for other purposes such as waiver of textbook fees.

CONTROL OF BLOOD BORNE PATHOGENS – Board Policy 8453.01

The District is subject to regulations from the Occupational Safety and Health Administration (OSHA) to restrict the spread of hepatitis B virus (HBV) and human immune deficiency virus (HIV) in the workplace. These regulations are designed to protect employees of the District who are, or could be, exposed to blood or other contaminated bodily fluids while performing their job duties.

Because of the very serious consequences of contracting HBV or HIV, the District is committed to taking the necessary precautions to protect both students and staff from its spread in the school environment.

Part of the federally-mandated procedures is a requirement that the District request the person who was bleeding to consent to be tested for HBV and HIV. This information would then be provided both to the exposed employee and the treating physician to determine proper medical treatment.

The law does not require parents to grant permission for the examination of their child's blood, but it does require the District to request that consent. Although we expect that incidents of exposure will be few, we wanted to notify parents of these requirements ahead of time. That way, if a situation does develop you will understand the reason for your request and will have had an opportunity to consider it in advance. These are serious diseases, and we sincerely hope that through proper precautions and cooperation we can prevent them from spreading.

If you have any questions or concerns, please contact our District Nurse, at 920-564-2392, Ext. 4201.

ANNUAL NOTICE OF SPECIAL EDUCATION REFERRAL AND EVALUATION PROCEDURES –

Public Release

Upon request, the Oostburg School District is required to evaluate a child for eligibility for special education services. A request for evaluation is known as a referral. When the district receives a referral, the district will appoint an Individualized Education Program (IEP) team to determine if the child has a disability, and if the child needs special education services. The district locates, identifies, and evaluates all children with disabilities who are enrolled by their parents in private (including religious) schools, elementary schools and secondary schools located in the school district.

A physician, nurse, psychologist, social worker or administrator of a social agency who reasonably believes a child brought to him or her for services is a child with a disability has a legal duty to refer the child, including a homeless child, to the school district in which the child resides. Before referring the child, the person making the referral must inform the child's parent that the referral will be made.

Others, including parents who reasonably believe a child is a child with a disability may also refer the child, including a homeless child, to the school district in which the child resides.

Referrals must be in writing and include the reason why the person believes the child is a child with a disability. A referral may be made by contacting Ashley Hinze, Director of Special Education, Oostburg School District, at 920-564-2346, Ext. 4151, or by writing her at 410 New York Avenue, P.O. Box 700100, Oostburg, WI 53070.

NOTICE OF CHILD FIND ACTIVITY FOR THE SCHOOL DISTRICT OF OOSTBURG – Public Release

The School District of Oostburg, upon request, will screen any child who has not graduated from high school to determine whether a special education referral is appropriate. A request may be made by contacting Ashley Hinze, Director of Special Education, School District of Oostburg, at 920-564-2346, Ext. 4151, or by writing her at 410 New York Avenue, P.O. Box 700100, Oostburg, WI 53070.

Annually, the District conducts developmental screening of preschool children at the kindergarten screening at Oostburg Elementary School in the spring. The information from the screening is also used to determine whether a child should be evaluated for a suspected disability.

Student records are maintained in the interest of the student to assist the school in providing appropriate educational experiences. Student records are defined as all records relating to an individual student other than notes or records for personal use by teachers or other certified personnel which are not available to others and records necessary for and available only to persons involved in psychological treatment of a student. These personal notes and records become a part of a student's records only when they are used to affect the student's educational experience. The guidance counselor will have primary responsibility for maintaining the confidentiality of all student records. All requests for transfer of student records should be made to the guidance department who will determine whether the inspection or transfer is permitted.

No person may be denied admission to any public school in the district or be denied participation in, be denied the benefits of, or be discriminated against in any curricular, co-curricular, student services, recreational or other program or activity because of the person's sex, race, color, national origin, ancestry, creed, religion, pregnancy, marital or parental status, sexual orientation, handicap or physical, mental, emotional or learning disability in the educational programs or activities operated by the School District of Oostburg.
